IMPORTANT HEALTH INFORMATION for Grades K – 6

The Illinois State School Code Health Law, Section 665, requires that a child have a complete “Certificate of Child Health Examination,” including mandated immunizations, upon entrance into **pre-k, kindergarten and sixth grades.**

The physical examination can be administered within the 12 months previous to the child’s entrance into school. The physical examination form is two-sided (both sides must be completed) and **requires 3** signatures to be considered “in compliance”.

1. Immunization section signed by health care provider
2. Health history signed by parent or legal guardian
3. Physical examination signed by MD, APN, or PA.

An eye examination is required for all children entering kindergarten, and all transfer students from out of state or country. A licensed physician who does eye examinations or a licensed optometrist must complete the exam. It can be completed within one year from the start of the school year.

A dental examination is required for children entering **kindergarten, second, and sixth** grade.

It is recommended that parents make arrangements with their physicians as soon as possible to ensure their child/children will have the required physical examination(s) and immunizations before registration in August. Failure to comply with the above statutory requirements will result in your child’s exclusion from school.

IMPORTANT SPORTS PHYSICAL INFORMATION for Grades 6 – 8

A yearly Sports Physical is required if your child plans to participate in any interscholastic sports! **Sports physicals are good for only one year from the date given.**
(Per school code section 1.530 part b., athletic code 3.060.)

SPORTS: Basketball, Cheerleading, Cross Country, Soccer,
Poms, Track and Field, Volleyball, Wrestling

- **No one is allowed to try out for sports without a current physical on file in the nurse’s office.**
- **A parent may not sign a waiver releasing the school from liability in lieu of a physical.**

State of Illinois Eye Examination Report

Illinois law requires that proof of an eye examination by an optometrist or physician (such as an ophthalmologist) who provides eye examinations be submitted to the school no later than October 15 of the year the child is first enrolled or as required by the school for other children. The examination must be completed within one year prior to the first day of the school year the child enters the Illinois school system for the first time. The parent of any child who is unable to obtain an examination must submit a waiver form to the school.
