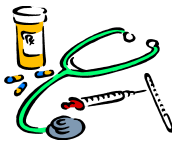
Important Health Information For Grades Pre-K to 8



The Illinois State School Code Health Law, Section 665, requires that a child have a complete "Certificate of Child Health Examination," including mandated immunizations, upon entrance into **pre-k**, **kindergarten and sixth grades.**

The physical examination can be administered within the 12 months previous to the child's entrance into school. The physical examination form is two-sided (both sides must be completed) and requires 3 signatures to be considered "in compliance."

1. Immunization section signed by health care provider
2. Health history signed by parent or legal guardian
3. Physical examination signed by MD, APN, or PA

An eye examination is required for all children entering **kindergarten**, and all transfer students from out of state or country. A licensed physician who does eye examinations or a licensed optometrist must complete the exam. It can be completed within one year from the start of the school year.

A dental examination is required for children entering **kindergarten**, **second**, and **sixth** grade.

It is recommended that parents make arrangements with their physicians as soon as possible to ensure their child/children will have the required physical examination(s) and immunizations before registration in August. Failure to comply with the above statutory requirements will result in your child's exclusion from school.

Immunization requirements for students entering Grade K-8 are listed on the following page.
Immunization requirements for Pre-K (Early Childhood) students are also listed separately on the following page.

Important Sports Physical Information For Grades 6 – 8

A yearly sports physical is required if your child plans to participate in any interscholastic sports! Sports physicals are good for only one year from the date given. (Per school code section 1.530 part b., athletic code 3.060.)

SPORTS: Basketball, Cheerleading, Cross Country, Soccer, Poms, Track and Field, Volleyball, Wrestling

- No one is allowed to try out for sports without a current physical on file in the nurse's office.
- A parent may not sign a waiver releasing the school from liability in lieu of a physical.

Following are the immunization requirements for the State of Illinois

Immunization Information for Students Entering Kindergarten - 8th Grade for the 18-19 school year

- **POLIO** - *Kindergarte*n: Four (4) or more doses of the same type of Polio vaccine with the last dose being the booster and received on or after the 4th birthday. *Other grades*: Three or more doses with the last dose qualifying as a booster and received on or after the 4th birthday. If the series is given in any combination of polio types, 4 or more doses are required with the last being a booster on or after the 4th birthday. Minimal interval between doses is 4 weeks (28 days).
- **DTD/DtaP/Td** - *Kindergarten*: Four (4) or more doses with the last qualifying as a booster and received on or after the 4th birthday. Other grades: Three (3) or more with the last dose qualifying as a booster given on or after the 4th birthday. Minimal interval between doses is 4 weeks (28 days).
- **MEASLES/MUMPS/ RUBELLA** - Two (2) doses, first (1st) administered on/after the first (1st) birthday, second (2nd) dose no less than four (4) weeks after first (1st) dose.
- **HEPATITIS B** - *Not required for Kindergarten through fifth (5h).* For students entering 6th grade: Three (3) doses, interval of at least four (4) weeks (28 days) between first (1st) and second (2nd) dose, interval between the second and third shot (56 days), first (1st) and third (3rd) dose must be four (4) months (112 days).
- **Tdap** - One (1) dose for all students entering 6th thru 12th grade.
- **MENINGOCOCCAL** - One (1) dose of vaccine at entry to 6th, 7th or 8th grade.
- **VARICELLA** - *Kindergarten & 1st Grade*: Two (2) doses administered on/after the first (1st) birthday. *Grade 5:* One dose received on or after 1st birthday. *All other Grades:* Two doses. The first dose must have been received on or after 1st birthday. The 2nd dose no less than 4 weeks (28 days) from 1st dose.

Immunization requirements for Early Childhood (Pre-K)

- **NEW: PNEUMOCOCCAL CONJUGATE VACCINE** (PCV13)- Four (4) doses- The first 3 doses 2 months apart, 4th dose at age 1 to 1 ½ years old.
- **POLIO** - Three (3) or more doses, at intervals of no less than four (4) weeks apart.
- **DTD/DtaP/Td** - Three (3) or more doses, at intervals of no less than four (4) weeks apart, last dose at least six (6) months since previous dose.
- **MEASLES/MUMPS/RUBELLA** - One (1) dose, administered on/after the first (1st) birthday.
- **HEPATITIS B** - Three (3) doses. Interval between dose 1 and 2 has to be at least four 4 weeks (28 days). Interval between dose 2 and 3 has to be at least 2 months (56 days).
- **Hib** - Follow the appropriate schedule. Children twenty-four (24) to fifth-nine (59) months of age who have not received a primary series according to the Hib schedule, must show proof of receiving one (1) dose at fifteen (15) months of age or older.
- **VARICELLA** - (Chicken Pox) One (1) dose, administered on/after the first (1st) birthday.

The dates of all immunizations must be noted on the Certificate of Child Health Examination Form (include month, day and year).

PROOF OF SCHOOL DENTAL EXAMINATION FORM

To be completed by the parent (please print):

Student's Name: Last First Middle			Birth Date: (Month/Day/Year) / /
Address: Street City ZIP Code			Telephone:
Name of School:		Grade Level:	Gender: ☐ Male ☐ Female
Parent or Guardian:		Address (of parent/guardian):	

To be completed by dentist:

Oral Health Status (check all that apply)

☐ Yes ☐ No **Dental Sealants Present**

☐ Yes ☐ No **Caries Experience / Restoration History** — A filling (temporary/permanent) OR a tooth that is missing because it was extracted as a result of caries OR missing permanent 1st molars.

☐ Yes ☐ No **Untreated Caries —** At least 1/2 mm of tooth structure loss at the enamel surface. Brown to dark-brown coloration of the walls of the lesion. These criteria apply to pit and fissure cavitated lesions as well as those on smooth tooth surfaces. If retained root, assume that the whole tooth was destroyed by caries. Broken or chipped teeth, plus teeth with temporary fillings, are considered sound unless a cavitated lesion is also present.

☐ Yes ☐ No **Soft Tissue Pathology**

☐ Yes ☐ No **Malocclusion**

Treatment Needs (check all that apply)

☐ **Urgent Treatment** — abscess, nerve exposure, advanced disease state, signs or symptoms that include pain, infection, or swelling

☐ **Restorative Care** — amalgams, composites, crowns, etc.

☐ **Preventive Care** — sealants, fluoride treatment, prophylaxis

☐ **Other** — periodontal, orthodontic

Eye Examination Report

Illinois law requires that proof of an eye examination by an optometrist or physician (such as an ophthalmologist) who provides eye examinations be submitted to the school no later than October 15 of the year the child is first enrolled or as required by the school for other children. The examination must be completed within one year prior to the first day of the school year the child enters the Illinois school system for the first time. The parent of any child who is unable to obtain an examination must submit a waiver form to the school.
