

Parent Access to STAR and IAR Data for Libertyville District 70 January 29, 2021

Parents can login to PowerSchool to review their child's assessment scores for STAR (taken by K-8 students in September, January, and May) and the Illinois Assessment of Readiness (IAR) that is taken in April by third through eighth grade students. STAR scores are available the day after the student completed STAR, because scores are uploaded during an overnight process. Once you register, you will receive an e-mail when new data is available for STAR or IAR.

If you have already registered in PowerSchool to view assessment scores, you can login via the link below. If you still need to create an account, please follow the directions below the link.

The only email addresses that will have access to this data are email addresses that you input during the registration process. If you are a parent/guardian and want to use a different e-mail address, please e-mail Katie Coyle (kcoyle@d70schools.org) so a different process can be updated for you.
