

## Viewing your District 70 student's report card online

1. Log into <https://powerschool.d70schools.org/> with the username and password you created during student registration
  - a) This must be done from a computer, **the report cards are not available through the mobile app**
  - b) If you've forgotten your username or password, please use the "Forgot Username or Password?" link below the password box and follow the directions to recover them.
2. Once you are logged in, if you have more than one student, select the one whose report card you wish to view by clicking on their name at the top of the screen.
3. Click on "PLS Vault Documents" in the sidebar on the left.

4. Once the Document screen loads, make sure the Folder drop down is set to "Report Cards"

5. The naming scheme for report cards is [grade level] [trimester number] [school year], so to view the third trimester report card for your student who was in kindergarten during the 19-20 school year, you would select the file named "Kindergarten T3 19-20.pdf" file and click the "Download" button. Once the file is downloaded, you can open it in the PDF viewer of your choice.
